Grading report — for the owner of this card

Dragonite

WT-0S5B-YRSW

9

MINT

How this grade was reached

A strong card. Held back by surface, at 7. Final grade: **9 (Mint)**.

Four axes are graded separately. The overall grade is computed from them, never typed over them. Centering is measured rather than judged, so it is shown as geometry; the other three carry the grader's reading of the card.

CENTERING 9.5

MEASURED, NOT ESTIMATED

FACE	LEFT / RIGHT	TOP / BOTTOM	METHOD	GRADE
front	52.6 / 47.4	54.0 / 46.0	measured by the grader	9.5
back	55.5 / 44.5	53.7 / 46.3	measured by the grader	9.5

Ratios are the card's border widths, not an estimate from eye. The grade follows a fixed tolerance table, so the same measurement always gives the same number.

CORNERS 10

Nothing on this axis shows at the magnification the card was graded at.

EDGES 10

2 ON THE BACK

Nothing on this axis shows at the magnification the card was graded at.

SURFACE 7

3 ON THE FRONT · 8 ON THE BACK

Wear that shows plainly on inspection, without magnification.

How it was graded

1. **Graded in hand.** The card was on our bench, and we photographed it front and back under controlled light. The photographs show which card this is and where anything we marked sits on it.
2. **Centering measured.** The border widths were measured by the grader, who drew the border lines by hand, and a fixed table turns the measurement into a grade. The same split always gives the same number.
3. **Corners, edges and surface read.** An AI takes the first pass on each. A person confirms or overrides every sub-grade before anything is recorded, and pins any mark they find on the photograph.
4. **The overall grade is arithmetic.** Nobody types it. The sub-grades make a score out of 1000, and the grade is that score over a hundred, rounded to the nearest half point.

The four sub-grades are combined at fixed weights: centering 30%, corners 23.4%, edges 23.3% and surface 23.3%. A mark the grader pinned takes points off the axis it sits on.

```
919 out of 1000 ÷ 100 = 9.19 rounded to the nearest half point = 9
```

Centering, in detail

Each face is measured twice: left against right, and top against bottom. The wider of the two splits is the one that counts, and the table below turns it into a grade.

FACE	LEFT / RIGHT	TOP / BOTTOM	WIDER SPLIT	TABLE RUNG	GRADE
front	52.6 / 47.4	54.0 / 46.0	54.0 / 46.0	within 55 / 45	9.5
back	55.5 / 44.5	53.7 / 46.3	55.5 / 44.5	within 60 / 40	9.5

Both faces measured 9.5, so that is the centering sub-grade.

FRONT: WORST SPLIT	GRADE
52 / 48	10
55 / 45	**9.5** THIS CARD
60 / 40	9
65 / 35	8.5
70 / 30	8
75 / 25	7
80 / 20	6
85 / 15	5
90 / 10	4
95 / 5	2
any split	1

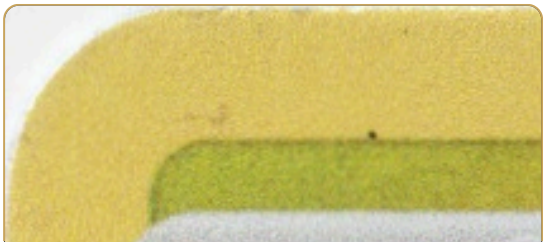

BACK: WORST SPLIT	GRADE
55 / 45	10
60 / 40	**9.5** THIS CARD
65 / 35	9
70 / 30	8.5
75 / 25	8
80 / 20	7
85 / 15	6
90 / 10	5
95 / 5	3
any split	2

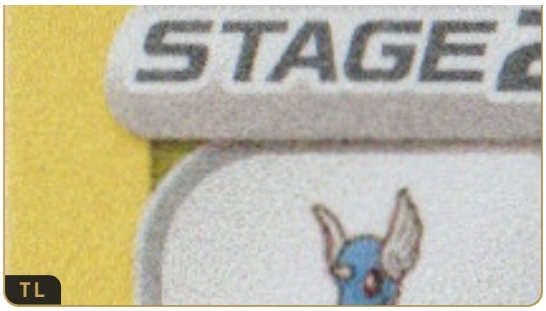

The front is held to a tighter split than the back at every grade.

Corners, at fixed magnification

Each corner is shown over a 9mm square at **30 pixels per millimetre** — the same magnification on every card this bench grades, so a corner here means what it meant on the last one. These are crops of the photographs above, not separate shots.

What the grader marked

Numbered pins are where a person looked and found something. They are placed by hand on the photograph, to show where on the card each one is.

FRONT — 2 MARKS PLACED BY THE GRADER

1. **Dent** VERY FAINT
   dent (very_faint)
2. **Holo Scratch** FAINT
   holo scratch (faint)

BACK — 8 MARKS PLACED BY THE GRADER

1. **Whitening** FAINT
   whitening (faint)
2. **Whitening** FAINT
   whitening (faint)
3. **Whitening** FAINT
   whitening (faint)
4. **Scratch** FAINT
   scratch (faint)
5. **Dent** FAINT
   dent (faint)
6. **Surface Scuff** FAINT
   surface scuff (faint)
7. **Surface Scuff** FAINT
   surface scuff (faint)
8. **Surface Scuff** FAINT
   surface scuff (faint)

Also observed

Recorded during the first pass and reviewed by the grader. These carry no position — they describe a region, not a point, which is why they are not pinned above.

- **front · scratch** FAINT
  Faint curved scratch/scuff in the yellow border area to the right of the Dragon Claw text, just left of the '80' damage number.
- **back · edge chip** FAINT
  Small dark nick/interruption in the blue border along the top edge, roughly above the 'K' of the upper POKEMON wordmark.
- **back · edge chip** FAINT
  Tiny dark speck/chip on the top edge of the blue border toward the top-right corner.

What this report is, and is not

WinnTCG graded this card **in hand**, on the bench. **The card was in our hands**, and we sealed the case ourselves. We photographed it here under controlled light to show which card is in the case and where anything we marked sits on it. The grade was made with the card in hand, so it rests on more than the photographs in this report can show.

This document is yours. It is not published with the certificate, and the public page shows the grade and the photographs without it.
