Grading report — for the owner of this card

# Basic Grass Energy

WT-8DJT-XVD6

# 10

GEM MINT

## How this grade was reached

A flawless card on every axis measured. Every axis landed on the same number. Final grade: **10 (Gem Mint)**.

Four axes are graded separately. The overall grade is computed from them, never typed over them. Centering is measured rather than judged, so it is shown as geometry; the other three carry the grader's reading of the card.

### CENTERING 10

MEASURED, NOT ESTIMATED

| FACE | LEFT / RIGHT | TOP / BOTTOM | METHOD | GRADE |
|---|---|---|---|---|
| front | 51.6 / 48.4 | 50.0 / 50.0 | measured by the grader | 10 |
| back | 51.3 / 48.7 | 51.3 / 48.7 | measured by the grader | 10 |

Ratios are the card's border widths, not an estimate from eye. The grade follows a fixed tolerance table, so the same measurement always gives the same number.

### CORNERS 10

Nothing on this axis shows at the magnification the card was graded at.

### EDGES 10

1 ON THE FRONT

Nothing on this axis shows at the magnification the card was graded at.

### SURFACE 10

2 ON THE FRONT · 1 ON THE BACK

Nothing on this axis shows at the magnification the card was graded at.

## How it was graded

1. **Graded in hand.** The card was on our bench, and we photographed it front and back under controlled light. The photographs show which card this is and where anything we marked sits on it.
2. **Centering measured.** The border widths were measured by the grader, who drew the border lines by hand, and a fixed table turns the measurement into a grade. The same split always gives the same number.
3. **Corners, edges and surface read.** An AI takes the first pass on each. A person confirms or overrides every sub-grade before anything is recorded, and pins any mark they find on the photograph.
4. **The overall grade is arithmetic.** Nobody types it. The sub-grades make a score out of 1000, and the grade is that score over a hundred, rounded to the nearest half point.

The four sub-grades are averaged, each counting equally.

> 1000 out of 1000 ÷ 100 = **10** rounded to the nearest half point = **10**

## Centering, in detail

Each face is measured twice: left against right, and top against bottom. The wider of the two splits is the one that counts, and the table below turns it into a grade.

| FACE | LEFT / RIGHT | TOP / BOTTOM | WIDER SPLIT | TABLE RUNG | GRADE |
|---|---|---|---|---|---|
| front | 51.6 / 48.4 | 50.0 / 50.0 | 51.6 / 48.4 | within 52 / 48 | 10 |
| back | 51.3 / 48.7 | 51.3 / 48.7 | 51.3 / 48.7 | within 55 / 45 | 10 |

Both faces measured 10, so that is the centering sub-grade.

| FRONT: WORST SPLIT | GRADE |
|---|---|
| **52 / 48** | **10** THIS CARD |
| 55 / 45 | 9.5 |
| 60 / 40 | 9 |
| 65 / 35 | 8.5 |
| 70 / 30 | 8 |
| 75 / 25 | 7 |
| 80 / 20 | 6 |
| 85 / 15 | 5 |
| 90 / 10 | 4 |
| 95 / 5 | 2 |
| any split | 1 |

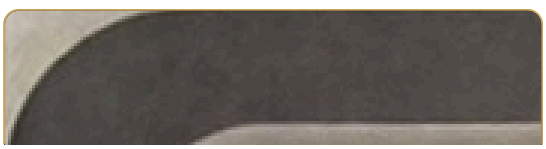

| BACK: WORST SPLIT | GRADE |
|---|---|
| **55 / 45** | **10** THIS CARD |
| 60 / 40 | 9.5 |
| 65 / 35 | 9 |
| 70 / 30 | 8.5 |
| 75 / 25 | 8 |
| 80 / 20 | 7 |
| 85 / 15 | 6 |
| 90 / 10 | 5 |
| 95 / 5 | 3 |
| any split | 2 |

The front is held to a tighter split than the back at every grade.

## Corners, at fixed magnification

Each corner is shown over a 9mm square at **30 pixels per millimetre** — the same magnification on every card this bench grades, so a corner here means what it meant on the last one. These are crops of the photographs above, not separate shots.

FRONT

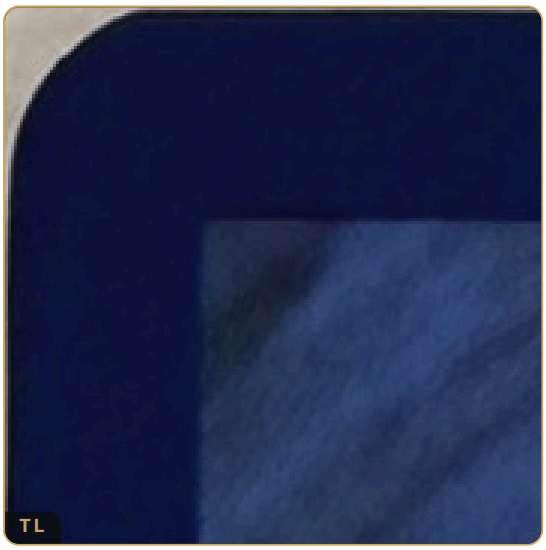

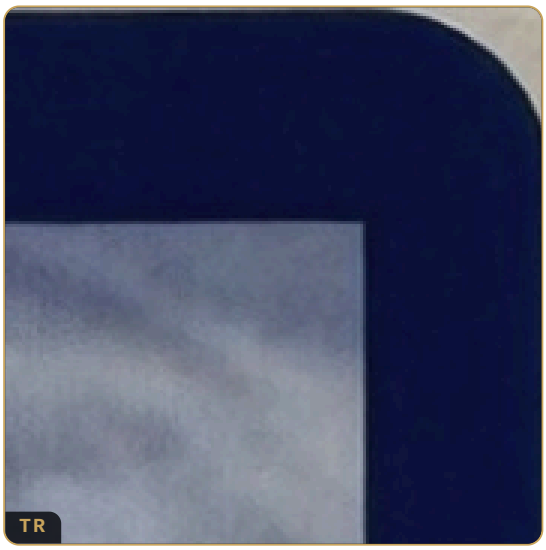

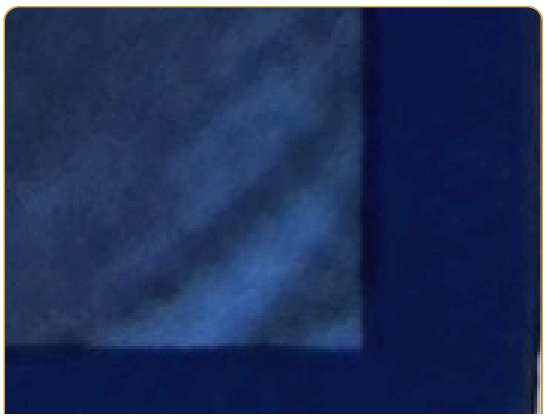

BACK

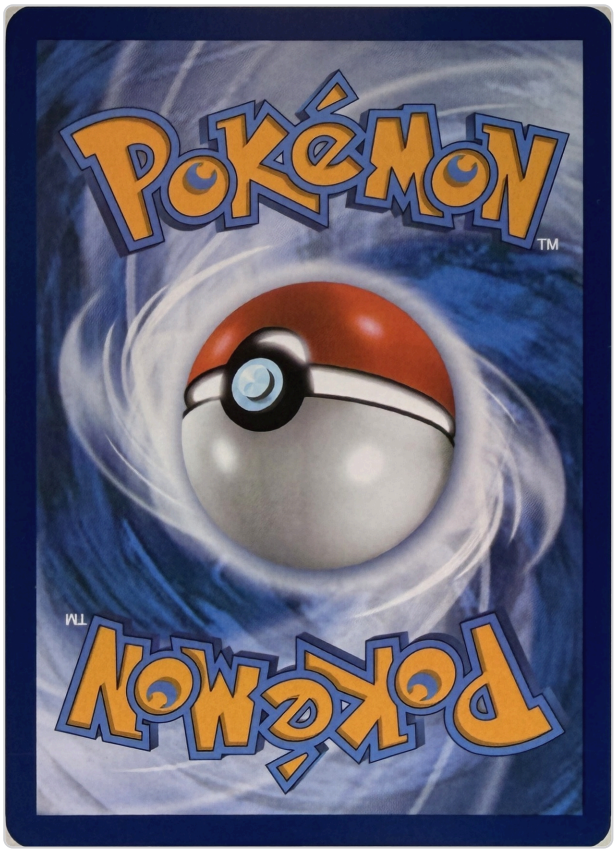

## What the grader marked

Numbered pins are where a person looked and found something. They are placed by hand on the photograph, to show where on the card each one is.

FRONT — 0 MARKS PLACED BY THE GRADER

BACK — 0 MARKS PLACED BY THE GRADER

## Also observed

Recorded during the first pass and reviewed by the grader. These carry no position — they describe a region, not a point, which is why they are not pinned above.

- **front · scratch** FAINT
  Thin hooked line about 3mm long in the green background above the bubble, right of centre-top; reads as a fine surface scratch or fibre impression.
- **front · surface scuff** FAINT
  Broad soft sheen across the centre bubble artwork; likely sleeve glare but a slight dulling of gloss cannot be ruled out.

- **front · edge chip** FAINT
  Silver top-left border shows a slightly irregular light margin over about 4mm; may be sleeve lip rather than card wear.
- **back · whitening** FAINT
  Pale hairline streak along the left blue border midway down, roughly 8mm long, consistent with very light edge rub.

## What this report is, and is not

WinnTCG graded this card **in hand**, on the bench. **The card was in our hands**, and we sealed the case ourselves. We photographed it here under controlled light to show which card is in the case and where anything we marked sits on it. The grade was made with the card in hand, so it rests on more than the photographs in this report can show.

This document is yours. It is not published with the certificate, and the public page shows the grade and the photographs without it.
