Grading report — for the owner of this card

猛恶菇 (Brute Bonnet)

WT-C0X5-H483

10

GEM MINT

How this grade was reached

A flawless card on every axis measured. Held back by centering, at 9.5. Final grade: **10 (Gem Mint)**.

Four axes are graded separately. The overall grade is computed from them, never typed over them. Centering is measured rather than judged, so it is shown as geometry; the other three carry the grader's reading of the card.

CENTERING 9.5

MEASURED, NOT ESTIMATED

FACE	LEFT / RIGHT	TOP / BOTTOM	METHOD	GRADE
front	52.5 / 47.5	58.5 / 41.5	measured by the grader	9
back	54.0 / 46.0	56.9 / 43.1	measured by the grader	9.5

Ratios are the card's border widths, not an estimate from eye. The grade follows a fixed tolerance table, so the same measurement always gives the same number.

How it was graded

1. **Graded in hand.** The card was on our bench, and we photographed it front and back under controlled light. The photographs show which card this is and where anything we marked sits on it.
2. **Centering measured.** The border widths were measured by the grader, who drew the border lines by hand, and a fixed table turns the measurement into a grade. The same split always gives the same number.
3. **Corners, edges and surface read.** An AI takes the first pass on each. A person confirms or overrides every sub-grade before anything is recorded, and pins any mark they find on the photograph.
4. **The overall grade is arithmetic.** Nobody types it. The sub-grades make a score out of 1000, and the grade is that score over a hundred, rounded to the nearest half point.

The four sub-grades are averaged, each counting equally.

```
988 out of 1000 ÷ 100 = 9.88 rounded to the nearest half point = 10
```

Centering, in detail

Each face is measured twice: left against right, and top against bottom. The wider of the two splits is the one that counts, and the table below turns it into a grade.

FACE	LEFT / RIGHT	TOP / BOTTOM	WIDER SPLIT	TABLE RUNG	GRADE
front	52.5 / 47.5	58.5 / 41.5	58.5 / 41.5	within 60 / 40	9
back	54.0 / 46.0	56.9 / 43.1	56.9 / 43.1	within 60 / 40	9.5

The grader filed centering at 9.5.

FRONT: WORST SPLIT	GRADE
52 / 48	10
55 / 45	9.5
60 / 40	**9** THIS CARD
65 / 35	8.5
70 / 30	8
75 / 25	7
80 / 20	6

The front is held to a tighter split than the back at every grade.

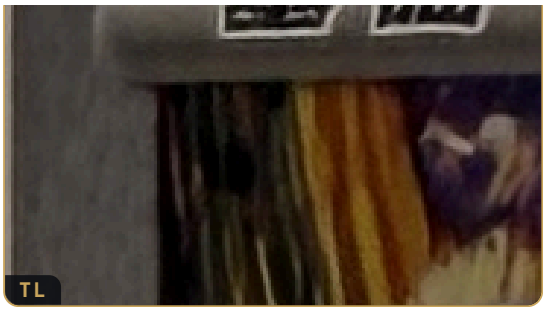

Corners, at fixed magnification

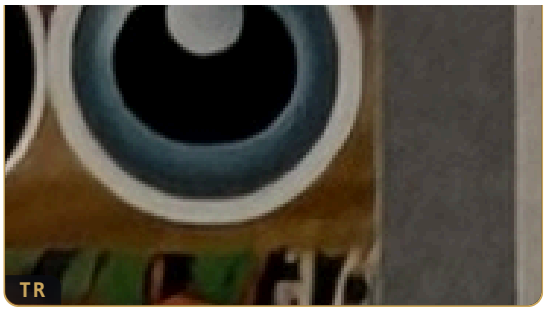

Each corner is shown over a 9mm square at **30 pixels per millimetre** — the same magnification on every card this bench grades, so a corner here means what it meant on the last one. These are crops of the photographs above, not separate shots.

What the grader marked

Numbered pins are where a person looked and found something. They are placed by hand on the photograph, to show where on the card each one is.

Also observed

Recorded during the first pass and reviewed by the grader. These carry no position — they describe a region, not a point, which is why they are not pinned above.

- **front · whitening** FAINT
  Very slight light speckling along the silver top-left border near the corner, under 1mm deep.
- **front · surface scuff** FAINT
  Faint pale diagonal streak roughly 12mm long crossing the lower artwork just above the weakness/resistance bar, left of centre.
- **front · holo scratch** FAINT
  Thin light line about 8mm long running across the yellow mushroom cap on the right side, visible as a break in the textured holo sheen.

What this report is, and is not

WinnTCG graded this card **in hand**, on the bench. **The card was in our hands**, and we sealed the case ourselves. We photographed it here under controlled light to show which card is in the case and where anything we marked sits on it. The grade was made with the card in hand, so it rests on more than the photographs in this report can show.

This document is yours. It is not published with the certificate, and the public page shows the grade and the photographs without it.
