Grading report — for the owner of this card

# Miraidon

WT-NV68-BEBM

9

MINT

## How this grade was reached

A strong card. Held back by surface, at 8.5. Final grade: **9 (Mint)**.

Four axes are graded separately. The overall grade is computed from them, never typed over them. Centering is measured rather than judged, so it is shown as geometry; the other three carry the grader's reading of the card.

### CENTERING 9

MEASURED, NOT ESTIMATED

| FACE | LEFT / RIGHT | TOP / BOTTOM | METHOD | GRADE |
|---|---|---|---|---|
| front | 57.5 / 42.5 | 55.9 / 44.1 | measured by the grader | 9 |
| back | 54.5 / 45.5 | 57.4 / 42.6 | measured by the grader | 9.5 |

Ratios are the card's border widths, not an estimate from eye. The grade follows a fixed tolerance table, so the same measurement always gives the same number.

## CORNERS 9.5

1 ON THE BACK

Handling only. Nothing here shows without looking for it.

## EDGES 9

4 ON THE BACK

Edges of the card are only visible head-on, not in profile, so chipping or nicks on the edge faces cannot be checked; from what is shown the blue back border is clean and unbroken and the front silver border shows at most a faint speckle near the lower-left, supporting a high but not perfect number.

## SURFACE 8.5

1 ON THE FRONT · 5 ON THE BACK

The holo pattern was photographed flat with even lighting and no raking light, so foil scuffing, fine scratches and dents cannot be confirmed; the visible evidence is limited to two small specks and slight mottling in the back border, which is what pulls this off 9.

## How it was graded

1. **Graded in hand.** The card was on our bench, and we photographed it front and back under controlled light. The photographs show which card this is and where anything we marked sits on it.
2. **Centering measured.** The border widths were measured by the grader, who drew the border lines by hand, and a fixed table turns the measurement into a grade. The same split always gives the same number.
3. **Corners, edges and surface read.** An AI takes the first pass on each. A person confirms or overrides every sub-grade before anything is recorded, and pins any mark they find on the photograph.
4. **The overall grade is arithmetic.** Nobody types it. The sub-grades make a score out of 1000, and the grade is that score over a hundred, rounded to the nearest half point.

The four sub-grades are averaged, each counting equally.

> 900 out of 1000 ÷ 100 = 9 rounded to the nearest half point = **9**

## Centering, in detail

Each face is measured twice: left against right, and top against bottom. The wider of the two splits is the one that counts, and the table below turns it into a grade.

| FACE | LEFT / RIGHT | TOP / BOTTOM | WIDER SPLIT | TABLE RUNG | GRADE |
|---|---|---|---|---|---|
| front | 57.5 / 42.5 | 55.9 / 44.1 | 57.5 / 42.5 | within 60 / 40 | 9 |
| back | 54.5 / 45.5 | 57.4 / 42.6 | 57.4 / 42.6 | within 60 / 40 | 9.5 |

A card is only as well centred as its worse face. Here that is the front, so centering is 9.

| FRONT: WORST SPLIT | GRADE |
|---|---|
| 52 / 48 | 10 |
| 55 / 45 | 9.5 |
| **60 / 40** | **9** THIS CARD |
| 65 / 35 | 8.5 |
| 70 / 30 | 8 |
| 75 / 25 | 7 |
| 80 / 20 | 6 |
| 85 / 15 | 5 |
| 90 / 10 | 4 |
| 95 / 5 | 2 |
| any split | 1 |

| BACK: WORST SPLIT | GRADE |
|---|---|
| 55 / 45 | 10 |
| **60 / 40** | **9.5** THIS CARD |
| 65 / 35 | 9 |
| 70 / 30 | 8.5 |
| 75 / 25 | 8 |
| 80 / 20 | 7 |
| 85 / 15 | 6 |
| 90 / 10 | 5 |
| 95 / 5 | 3 |
| any split | 2 |

The front is held to a tighter split than the back at every grade.

## Corners, at fixed magnification

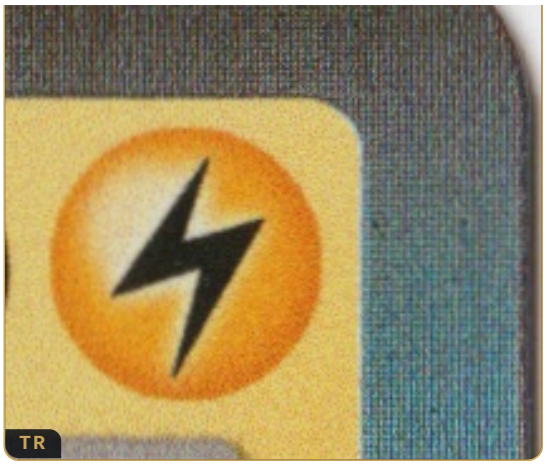

Each corner is shown over a 9mm square at **30 pixels per millimetre** — the same magnification on every card this bench grades, so a corner here means what it meant on the last one. These are crops of the photographs above, not separate shots.

## What the grader marked

Numbered pins are where a person looked and found something. They are placed by hand on the photograph, to show where on the card each one is.

FRONT — 0 MARKS PLACED BY THE GRADER

BACK — 7 MARKS PLACED BY THE GRADER

1. **Whitening** FAINT
   whitening (faint)
2. **Whitening** FAINT
   whitening (faint)
3. **Edge Chip** FAINT
   edge chip (faint)
4. **Edge Chip** FAINT
   edge chip (faint)
5. **Edge Chip** FAINT
   edge chip (faint)
6. **Edge Chip** FAINT
   edge chip (faint)
7. **Corner Ding** FAINT
   corner ding (faint)

## Also observed

Recorded during the first pass and reviewed by the grader. These carry no position — they describe a region, not a point, which is why they are not pinned above.

- **front · whitening** FAINT
  Very slight light speckling along the left border near the bottom-left

corner of the silver holo frame, readable only as a faint lightening.

- **back · surface scuff** FAINT
  Small dark speck/mark in the blue border above the left side of the POKEMON logo, close to the top-left corner region.
- **back · stain** FAINT
  Tiny orange-brown fleck in the dark blue border near the top edge, right of centre-left, visible as a pinpoint dot against the solid blue.
- **back · print defect** FAINT
  Slight lighter mottling in the blue border along the bottom edge below the inverted logo, consistent with minor print inconsistency.

## Card details

A card of this name and number, out of **84**, exists in the public card catalogue — **Pitch Black**, R. The details on this certificate match it.

That printing is illustrated by **mashu**, published **2026-07-17**. Both come from the public catalogue, not from WinnTCG.

> **This is not a test of authenticity.** It confirms the card is the card it claims to be. A good counterfeit of a real card would match exactly the same way, and the tests that would settle it (light through the core, weight, thickness, surface texture) are laboratory tests, and WinnTCG does not run them. We had this card in our hands and graded what we could see; that is not a statement that it is genuine.

## What this report is, and is not

WinnTCG graded this card **in hand**, on the bench. **The card was in our hands**, and we sealed the case ourselves. We photographed it here under controlled light to show which card is in the case and where anything we marked sits on it. The grade was made with the card in hand, so it rests on more than the photographs in this report can show.

This document is yours. It is not published with the certificate, and the public page shows the grade and the photographs without it.
