Grading report — for the owner of this card

Devastating Gunship

WT-RQW6-WV8Z

9.5

MINT+

How this grade was reached

An outstanding card, a half point from perfect. Held back by corners, at 7.5. Final grade: **9.5 (Mint+)**.

Four axes are graded separately. The overall grade is computed from them, never typed over them. Centering is measured rather than judged, so it is shown as geometry; the other three carry the grader's reading of the card.

CENTERING 10

MEASURED, NOT ESTIMATED

FACE	LEFT / RIGHT	TOP / BOTTOM	METHOD	GRADE
front	50.0 / 50.0	52.1 / 47.9	measured by the grader	9.5
back	50.0 / 50.0	50.0 / 50.0	measured by the grader	10

Ratios are the card's border widths, not an estimate from eye. The grade follows a fixed tolerance table, so the same measurement always gives the same number.

CORNERS 7.5

Wear that shows plainly on inspection, without magnification.

EDGES 10

Nothing on this axis shows at the magnification the card was graded at.

SURFACE 9.5

How it was graded

1. **Graded in hand.** The card was on our bench, and we photographed it front and back under controlled light. The photographs show which card this is and where anything we marked sits on it.
2. **Centering measured.** The border widths were measured by the grader, who drew the border lines by hand, and a fixed table turns the measurement into a grade. The same split always gives the same number.
3. **Corners, edges and surface read.** An AI takes the first pass on each. A person confirms or overrides every sub-grade before anything is recorded, and pins any mark they find on the photograph.
4. **The overall grade is arithmetic.** Nobody types it. The sub-grades make a score out of 1000, and the grade is that score over a hundred, rounded to the nearest half point.

The four sub-grades are averaged, each counting equally.

> 925 out of 1000 ÷ 100 = 9.25 rounded to the nearest half point = **9.5**

Centering, in detail

Each face is measured twice: left against right, and top against bottom. The wider of the two splits is the one that counts, and the table below turns it into a grade.

FACE	LEFT / RIGHT	TOP / BOTTOM	WIDER SPLIT	TABLE RUNG	GRADE
front	50.0 / 50.0	52.1 / 47.9	52.1 / 47.9	within 55 / 45	9.5
back	50.0 / 50.0	50.0 / 50.0	50.0 / 50.0	within 55 / 45	10

The grader filed centering at 10.

The front is held to a tighter split than the back at every grade.

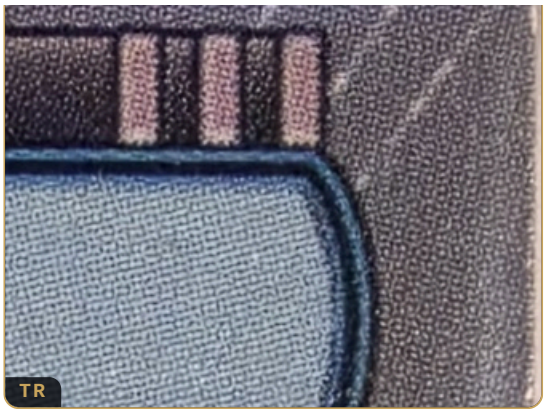

Corners, at fixed magnification

Each corner is shown over a 9mm square at **30 pixels per millimetre** — the same magnification on every card this bench grades, so a corner here means what it meant on the last one. These are crops of the photographs above, not separate shots.

What the grader marked

Numbered pins are where a person looked and found something. They are placed by hand on the photograph, to show where on the card each one is.

Also observed

Recorded during the first pass and reviewed by the grader. These carry no position — they describe a region, not a point, which is why they are not pinned above.

- **front · holo scratch** FAINT
  A short pale lavender streak sits in the foil just left of the 'Devastating' title, running down beside the blue shield icon; may be a light reflection.

- **back · surface scuff** FAINT
  Broad soft light bands cross the glossy black back through the STAR WARS logo; cannot be separated from the sleeve's reflection at this angle.
- **back · print defect** FAINT
  Small reddish-pink mark in the black starfield about an inch below the top edge, left of the diagonal blue streak.

What this report is, and is not

WinnTCG graded this card **in hand**, on the bench. **The card was in our hands**, and we sealed the case ourselves. We photographed it here under controlled light to show which card is in the case and where anything we marked sits on it. The grade was made with the card in hand, so it rests on more than the photographs in this report can show.

This document is yours. It is not published with the certificate, and the public page shows the grade and the photographs without it.
